Left in stock 1953 X 16) several of Chocolate or cream color

**Price: \$ 6,900.00**

**comes with a battery 60km / hrs**

## **Product Code: 1953 CW**

Elegant lines meet innovative technology. The result of our development work is a functional design that meets the highest quality standards. A digital speedometer, removable batteries and a powerful wheel hub motor – with our 1953 model we have created a powerful and solid electric scooter.

Your Kumpan is 100% electric. Smelly exhaust fumes and noise are a thing of the past thanks to the highly developed electric drive. From now on you can enjoy the environment in all its facets during your ride.

The electric motor built into the rear wheel provides up to 2500 watts with the help of our boost function. It's almost maintenance-free and much cleaner than any petrol engine.

Rear top case Not shown on image included.
